Dethleffs
A friend of the family

Arist Dethleffs invents caravanning in 1931

Determined to make sure his family could always join him on his business trips, Arist Dethleffs invented the first “camper car” – and at the same time, a completely new type of holiday. In so doing, the horsewhip and ski pole manufacturer pioneered a success story that continues to this day.

Not without my family!

An idea enters mass production

Wherever the Dethleffs family appears with their caravan, curious onlookers surround it. The prototype meets with great interest and thus attracts more and more followers. The idea becomes a company – the company becomes an entire leisure and holiday industry.

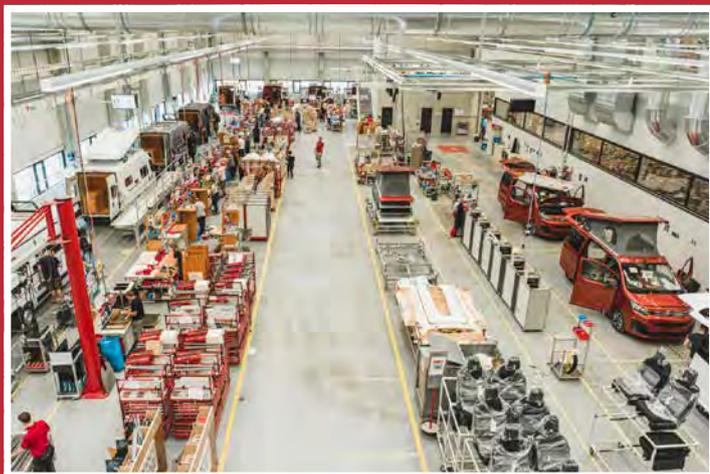

ARIST DETHLEFFS TRANSFORMED AN IDEA INTO A MOVEMENT. HIS TRAILBLAZING FRAME OF MIND LIVES ON AT DETHLEFFS, INSPIRING MILLIONS IN THE DECADES THAT FOLLOWED.

Dethleffs

90 years of experience, reliability & service

Welcome to the Dethleffs feeling

A Dethleffs motorhome feels right from the moment you lay eyes on it. Because the quality of our products is just as appealing as the price. With "service" that means doing whatever it takes to provide our customers with unique mobile holiday experiences. And a product range that offers the right vehicle for every individual situation and requirement.

A pioneering spirit that shapes the future

Our factory in Isny im Allgäu is one of Europe's most advanced production facilities for recreational vehicles and has always been committed to meeting the highest quality standards. Over 55,000 camper vans have been developed and produced here over the last 17 years.

More than 90 caravan and motorhome models for unique holiday experiences on wheels.

The first camper van from Dethleffs.

Our world premiere – Dethleffs launches the first camper van under its own brand! Over the past 17 years, more than 55,000 urban campers and camper vans have been designed, developed and built at the Isny site for a number of other brands. About time, then, to build a vehicle of our own.

Dethleffs has therefore drawn on its many years of experience to design a camper van that will delight you with well thought-out details, a modern ambience and a generous “90 Years” specification – naturally in the renowned Dethleffs quality.

Put your trust in our profound expertise gained from over 90 years of recreational vehicle construction – and get ready for the first “Dethleffs among camper vans”.

Everything you need: Our "90 Years" specification

The **large awning** creates a shady spot next to the vehicle and the awning light ensures a cosy ambience.

Wire preparations for solar modules, reversing camera, TV and SAT connection

Black alloy wheels add a sporty touch to your Globetrail.

Luxurious equipment in the cab: leather steering wheel, captain's chair with armrests, and much more.

Radiator grille finished in high-gloss black

90-litre fuel tank

Bumper matching the vehicle colour

1

Your living room on wheels.

When Dethleffs builds a camper van, you can be sure of premium quality, a perfect ambience and well thought-out solutions. This is hardly surprising, given that our designers live and breathe camping and therefore understand exactly what you need.

- 1** High-quality fabrics, tasteful colour combinations and solid workmanship make the Globetrail a genuine Dethleffs. The flush fitting windows are included in the 90 Years Edition.
- 2** Enjoy some (mobile) home cooking. The kitchen makes optimal use of the available space. Thanks to a door that opens 180°, the large fridge is easily accessible from both outside and inside the vehicle.
- 3** The overhead lockers offer plenty of space for your equipment.
- 4** Ambient lighting inside the drawer illuminates the contents and creates a warm ambience.

At home on the road.

There is no need to sacrifice comfort while on the road. Thanks to an optimal use of space and premium materials, the feel-good factor is guaranteed on every trip.

1 Double bed and oasis of relaxation in one. Of course, with a real folding slatted frame. The overhead lockers include ambient lighting that creates a pleasant mood.

2 The standard overhead lockers above the rear door provide additional storage space and feature ambient lighting.

1

Spacious bathroom with practical layout.

The bathroom with tambour door makes efficient use of the available space – it offers plenty of elbow room and storage space. To take a shower, simply pull the shower curtain around the shower tray. The pull-out tap doubles as a shower head.

The opening window, which is equipped with a mosquito screen and blackout roller blind, ensures good ventilation.

The practical tambour door opens and closes smoothly and quietly. Its great advantage is that it takes up no space, unlike a conventional door. The extra elbow room is extremely pleasant, especially when cooking.

1 The bathroom impresses with its extra-wide tambour door and conveys an impressive sense of spaciousness.

2 The bathroom features an overhead wall unit with plenty of storage space – individual items can be secured with smart rubber bands or by the sliding mirror door, which can be easily pushed to the side without restricting headroom.

3 The pull-out tap becomes a versatile outdoor shower in no time at all.

BATHROOM WITH ROTATING WALL

From bathroom to shower in a jiffy.

An idea as ingenious as it is simple – simply swivel the rear wall together with the sink to transform the bathroom into a fully-fledged shower cubicle. The swivel bathroom is fitted as standard in the 600 S and 640 S models.

Simply ingenious.

The three-dimensionally shaped rotating wall with semi-transparent frosted-glass finish fits snugly against the rear wall and thus takes up hardly any space. In a single movement, it can be swivelled above the toilet together with the sink. This creates an enclosed, plastic-panelled shower enclosure with its own shower fitting.

Dethleffs Globetrail. The camper car.

The Dethleffs Globetrail is more than just a converted van. It is your own “camper car” in which you can live comfortably while on the road. Each time you use your vehicle, you will notice numerous clever details that reveal our designers’ passion for using space optimally and creating the perfect living environment.

The details make the difference.

Our 17 years of experience in camper van construction reveal themselves in the myriad tiny details. The Dethleffs engineers know what really matters.

- 1 Standard lashing rings keep your cargo safe while on the move. You can even safely transport a washing machine!
- 2 Only in a Dethleffs – the extendable glider offers plenty of space for smaller items.
- 3 Schuko sockets and USB charging ports.
- 4 Large capacity – the 84-litre fridge with 3-star freezer compartment.
- 5 The single beds can be individually folded up to create additional storage space.
- 6 All manner of cooking utensils can be safely stowed inside the large, spacious, handleless drawers with manual central locking system.
- 7 There is even room for a storage compartment inside the raised floor.
- 8 The integrated wardrobes help you keep things neat and tidy – and avoid creases in your holiday outfits.
- 9 The ambient step lighting, which also functions as an entrance light, increases safety and creates a welcoming ambience.

When you are on the road, you need to feel safe.

Well over 300 Dethleffs dealers are on hand to provide you with competent advice and expert help in the unlikely event that the worst should happen. And our overnight spare parts service ensures that the right parts arrive at the right place on time.

This outstanding service has been appreciated by Dethleffs customers for decades. Because we have always taken the idea of “customer service” literally.

The family-friendly Globetrail.

Our innovative folding roof lets you extend the available living space by creating an additional bedroom on the upper level – with sensational panoramic views.

1 The practical gooseneck light illuminates exactly the right spot. It features economical LED technology and a USB charging port for mobile devices.

2 The large panoramic skylight allows daylight and air into the folding roof. Naturally, it is equipped with a blackout blind and mosquito screen.

3 The canvas walls in the folding roof allow different degrees of darkening – from completely closed to an open “convertible” version (see Fig. 5).

4 Enjoy a clear view of the starry sky while staying fully protected – thanks to a fine-mesh mosquito net that also lets you feel the cool evening air.

5 Sleep even better! The high-quality, 6-cm-thick cold foam mattress comes in a standard size of 209 x 143 cm. The base consists of optimally matched real wood slats which also provide ventilation for the mattress.

Looking for that little something extra?

Dethleffs Original Accessories offers a range of tailored accessories for your Globetrail, as well as clever camping gadgets. Customise your vehicle to your heart's content – to ensure you feel completely at home on the road.

1 Black gloss 18" alloy wheels lend your Globetrail an individual touch.

2 The cab carpet is tailor-made and creates a pleasant, homely atmosphere.

3 The dashboard cover with insulating function protects the dashboard from harmful UV radiation in summer and retains the heat in winter.

4 Thermal insulation for the rear doors. Keeps the heat in and the cold out. Or vice versa.

5 The waste water hose set avoids tedious manoeuvring when disposing of waste.

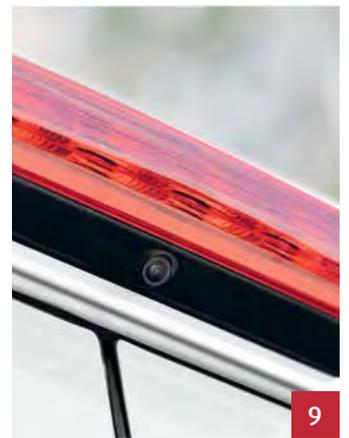

6 Mosquito net for the rear doors. Provides lasting protection against uninvited visitors.

7 The optionally available gecko feet make the extendable ladder extremely stable and easier to use outside the vehicle.

8 Sunblind for the front and side windows

9 Dethleffs Multimedia Package: ZENEC Z-E3766EHG navigation device including navigation software for camper vans and matching reversing camera.

Chassis selection

The Globetrail is available on a Fiat Ducato, Citroen Jumper or Peugeot Boxer chassis. The choice of chassis has no effect on the camper van conversion – this is identical for all 3 variants.

The three chassis types are distinguished by:

- the radiator grille design
- the design of the dashboard
- the technical specifications regarding engines, chassis equipment and assistance systems.

The respective vehicle specifications can be found in the Globetrail price list and online at www.dethleffs.de/globetrail.
