Dethleffs
A friend of the family

Arist Dethleffs invents caravanning in 1931

Determined to make sure his family could always join him on his business trips, Arist Dethleffs invented the first “camper car” – and at the same time, a completely new type of holiday. In so doing, the horsewhip and ski pole manufacturer pioneered a success story that continues to this day.

Not without
my family!

An idea enters mass production

Wherever the Dethleffs family appears with their caravan, curious onlookers surround it. The prototype meets with great interest and thus attracts more and more followers. The idea becomes a company – the company becomes an entire leisure and holiday industry.

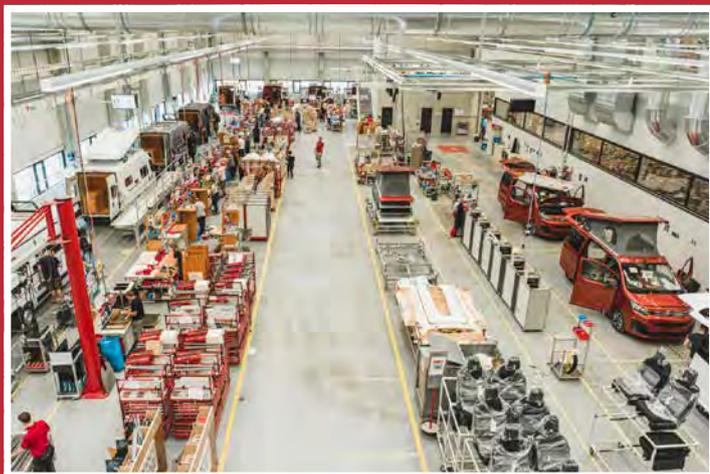

ARIST DETHLEFFS TRANSFORMED AN IDEA INTO A MOVEMENT. HIS TRAILBLAZING FRAME OF MIND LIVES ON AT DETHLEFFS, INSPIRING MILLIONS IN THE DECADES THAT FOLLOWED.

Dethleffs Globetrail. The camper car.

The Dethleffs Globetrail is more than just a converted van. It is your own “camper car” in which you can live comfortably while on the road. Over the past 17 years, more than 55,000 urban campers and camper vans have been designed, developed and built at the Isny site for a number of other brands. About time, then, to build a vehicle of our own.

Which is why Dethleffs has drawn on its many years of experience to design a camper van that will delight you with well thought-out details, a modern ambience and a generous 90th Anniversary Equipment – naturally in the renowned Dethleffs quality.

Put your trust in the profound expertise gained from over 90 years of recreational vehicle construction and look forward to the latest “Dethleffs among camper vans” – the Globetrail on a Ford chassis.
