Motorhomes 2019

Dethleffs
A friend of the family

Welcome to the friend of the family

"Not without my family" – that was the inner drive for our company founder, Arist Dethleffs, to invent the "living car". He wanted to promote his family business without leaving his family behind.

This family idea forms our daily work. Our highest target is to make holidays in a Dethleffs a unique experience on wheels. Dethleffs is your reliable and fair partner – awarded with the "German Fairness Price 2017".

LOW PROFILE AND A CLASS

GLOBEBUS

Pictures on following pages partly show elements of the optional Gran Turismo equipment package at extra price.

PLUS FACTORS

+ Rot-free Lifetime Smart conversion technology
+ Spacious interior
+ 198 cm internal height
+ Large L-shaped lounge with modern soft furnishings
+ Robust work surface extension in kitchen area (not in T/I 7)
+ Large rear garage (incl. drop chassis extension) with second garage door
+ Sporty, prominent Gran Turismo (GT) equipment package (optional)

Compact, agile & yet so big

The most compact range within the Dethleffs model program is perfect for city trips on narrow streets or on winding pass roads. At the same time you have all the advantages of a fully-fledged motorhome, since the Globebus has been rigorously developed with regard to comfort and spaciousness. Take one look inside and the cosy atmosphere and stylish interior will win you over immediately.

For those of you who appreciate distinctively sporty details, the Gran Turismo equipment package is just right.

Globebus
Low Profile

T6 | Rosario Cherry | Quadro

Thinking ahead: the aerodynamically formed cab hood reduces fuel consumption and incorporates a large, positionable panoramic window as standard. The large window lets light and air into the interior of the vehicle. Underneath you can take a comfortable seat in the L-shaped lounge.

Globebus
A Class

I6 | Rosario Cherry | Atomic

The royal class in a compact format! Its elegance makes the Globebus A Class a real eye-catcher - active driving, compact and excellent design. Travelling is a fantastic experience thanks to the huge panoramic windscreen and the spacious in the cab.

The practical pull-down bed comes as standard with a bed width of 150 cm. The pull-down bed can be upgraded to electrical operation.

Globebus Gran Turismo – an eye-catcher inside and out!

The Globebus Gran Turismo (GT) package comes with a large number of exclusive equipment components such as leather steering wheel, alloy wheels and the option of the entrance door with central locking function. A unique identifying feature for the automotive GT design is the red skid plate – just one of many details of the extensively refined exterior and interior designs. Many components which are optional extras for the Globebus are already included in the standard equipment of the GT.

Automotive cockpit with leather steering wheel and Aluminium applications

Eye-catching: A sleek high-gloss black splashback in the kitchen

Unique identifier: The GT Skid plate in red

Safe and well-insulating: The dark framed windows

Pure relaxation

Part of a wonderful holiday is also a healty and restful sleep. This is the reason why all fixed beds in the Globebus models are equipped with an ergonomic 7-zone mattress made of climate regulating material. For all layouts the Dethleffs designers made sure that despite the large rear garage it is possible to sit comfortably on the fixed beds.

The pull-down bed in the A Class models has a sleeping area of up to 150 cm in width

Height-adjustable! The large double bed with a comfortable access from three sides can change its height depending on the loading capacity // T/I 7 | Atomic

Another good solution: Single beds can be converted to a large double bed (200 x 155 cm) // T/I 6 | Quadro

Small but impressive!

The new kitchens in the Globebus boast maximum comfort in a small space. All of them come with a 3-burner hob cooker with electrical ignition. The three large drawers and a practical pull-out pantry are equipped with smooth steel runners and a Softclose function. As standard there is a large 142 l fridge / freezer combination.

Maximum comfort in a small space with large and easy-to-load drawers and lockers // T / I 7 | Atomic

Robust working surface extension plate which invisibly disappears behind the kitchen unit when not needed // T / I 6

Refreshment

The compact Globebus models do not skimp on bathroom comfort. During development great importance was attached to creating easy-access bathroom elements with high-quality fittings and plenty of storage space.

Intelligent 3-D bathroom concept with high-gloss wash bowl and noble marble look // T / I 7

The T / I 6 comes with a roomy shower, an easy-to-access wash bowl and much storage space

LOW PROFILE AND A CLASS

TREND

PLUS FACTORS

+ Perfect price / performance ratio
+ Optional pull-down bed for Low Profile models
+ Rot-proof Lifetime Smart body construction
+ 142 l fridge with large freezer compartment
+ Coupé entrance with extra wide entrance door (70 cm)
+ Large garage for transportation of E-bikes (dep. on layout)
+ High payload capacity despite being licenced for 4 persons at 3.5 t total weight
+ Even more in the Trend with the stylish Design package (option)

The perfect start

The Trend range is ideal for those with a sporty driving style – and the price is ideal as well. It makes heads turn with its spotless workmanship, perfect quality from Allgäu and many features that can hardly be described as standard. This includes for example the rot-proof Lifetime Smart conversion construction. For the new model year the most popular range has been revised and is presented now fresher, more harmonious and with many clever details.

For maximum flexibility there is wide selection of sleeping berths in the Trend models. So the Low Profile models can be optionally equipped with a pull-down bed, the A Class ones have it on board as standard. It offers additional beds in a flash. For those of you who prefer the outstanding details Dethleffs have created the Design package with many chic options.

Trend
Low Profile

T 6717 EB | Talk

The Trend Low Profile scores with excellent road-handling properties. This sporting impression is accentuated by the dynamic lines of the cab hood (if desired with large, openable window) and the modern design. However, the Trend really steals the show when it comes to functionality. The standard feature is the Dethleffs drop chassis extension which allows extra large rear garages up to 115 cm in height! The garages have access doors on the left and right. The exceptionally wide 70 cm living room door means an enormous gain in comfort.

Trend
A Class

I 7057 DBM | Design package | Torcello

Experience a magnificent holidays at a great price – with the Trend A Class. It is equipped with everything that the Dethleffs successful range stands for, and of course with the genes of a real A Class: Experience amazing comfort thanks to the large panoramic windscreen, generous space in the cab and also the standard pull-down bed which offers an enjoyable sleeping and at 195 x 150 cm, it is big enough for two.

Healthy sleep!

We know that first-class sleeping comfort is top priority for our customers. That's why we only equip the Trend models with a perfectly balanced combination of top quality mattresses developed in Switzerland, and ergonomic wooden slatted frames as a sprung base.

To reflect individual preferences, there is a choice between single or double beds. In the Trend you will find both variations in two models. Single beds in the Trend are located high enough so there is still sufficient headroom and space for a high garage in the rear. Ideal for all those who want to go on holiday with lots of luggage or want to make sure that e-bikes or scooters are well-protected during transportation.

Undisturbed sleeping comfort in single beds! They are 195 cm long and can be optionally converted to a double bed // T / I 7057 EBL

Low Profile: If desired with electric pull-down bed! Depending on the model, this means one or two additional beds available at the press of a button!

King size beds offer easy access from three sides. This means that getting up without waking your partner is no problem // T / I 7057 DBM | (beds with optional height adjustment for T / I 7057 DBM; for T / I 7057 DBL standard)

Cooking fun on wheels

Cooking is especially fun on holiday. The Trend comes with a fully-equipped L-shaped kitchen with equipment components you would otherwise find in more expensive models, such as the large 142l high fridge or spacious drawers with Softclose technology.

In the layouts with open lounge (7057 EBL & DBL) the kitchen is perfectly integrated into the open room // T 7057 EBL | Design package | La Rocca

Fully equipped kitchen with much room and space for preparation of tasty meals
// T 7017 EB | Topaz Apple | Talk

Wellness Oasis

It's a good feeling to know that your private bathroom is only a few steps away. Whether for a quick refreshment during the journey or daily personal hygiene on holiday – the Trend gets top marks for a lot of practical ideas! For the new model year the Trend model gets more smart details.

In some models, the shower cubicle and washroom can be joined together to form a huge bathroom over the entire width of the vehicle // T/I 7057 DBL | Topaz Apple

Many storage compartments - mirrors and daylight what else?

Trend
Design package

For the interior you can opt for a Design package which gives a completely new look to the interior of the Low Profile and A Class models. The modern wood décor Virgina Oak with its light grey wood shade together with the elegant high-gloss element with Chrome stripe in the overhead locker doors give the interior a trendy and chic style. There are three matching soft furnishing designs to choose from and the cushions come into their own in the generous L-shaped lounge. Complementary lovely details underline the stylish look of the Trend making it a real eye-catcher.

COACHBUILT

TREND

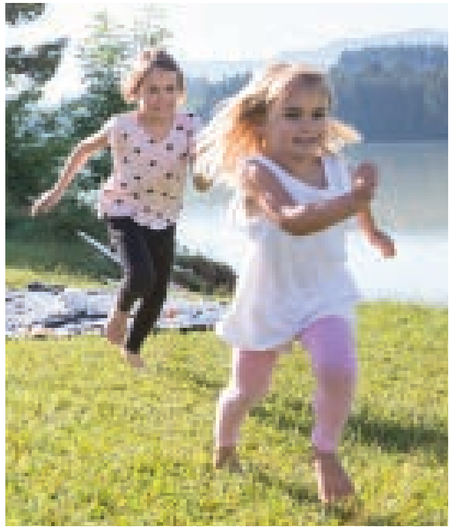
PLUS FACTORS

+ Perfect price / performance ratio
+ Large (210 x 165 cm) bed in Overcab
+ 142 l fridge with large freezer compartment
+ 70 cm wide entrance door and electric entrance step
+ Large garage for transportation of E-bikes (dep. on layout)
+ High payload capacity and if desired with 6 passengers' registration

All on board!

More motorhome for your money. Whether it's the large 142l fridge, extra-wide entrance door or especially high rear garages for demanding transportation tasks – the Trend is the perfect start into the Dethleffs world of mobile travelling. At the same time the Trend Coachbuilt is an absolute light-weight: despite only being 3.5t total weight, it can accommodate up to six persons (A 5887 & A 6977)!

For extra of space and payload there is the model Trend A 7877-2. With its proud total weight of 5 tones if offers a lot of space to families – and all that at a very beneficial price. Furthermore its double floor construction makes it perfect for year-round travel.



For the big family holidays

The Trend Coachbuilt is the ideal holiday companion for all those who have lots of luggage to take away. Whether its family items or sport equipment – everything can go on board. All bulky items can be stored in the large rear garages. The lower bunk bed in the A 5887 can be folded away to create a storage space from the floor to ceiling.

And – every family member can go on tour! Because even with 3.85 t of total weight this vehicle can still have 6 passengers (A 5887 and A 6977).

All around the table: Enough space even for spontaneous visitors // A 7877-2 | Torcello

The big friend of the family

The A 7877-2: A Coachbuilt model which comes with enormous space and a large rear double bed for long holidays for up to six persons. To enable storage space in the interior many of your holiday utensils can be stored in the large rear garage and in the 40 cm high double floor. This floor construction makes sure that the vehicle installations like fresh water and waste water tanks are protected from cold temperatures. The ideal winter holiday companion can be upgraded with the optional warm water heating.

For the really big family holidays: Huge living room with generous seating lounge and spacious kitchen // Torcello

Ample work surface in the kitchen. After cooking you can enjoy the tasty meal together in the large seating lounge // La Rocca

Bedtime

Coachbuilt models are real room wonders. They excel in their number of sleeping berths and their generous cosyness. The room in the Overcab is always booked by kids because it is not only there for sleeping but also for adventure on 3.5 qm. The rear is arranged in two different bed positions: bed crossways for two (A 6977 and A 7877-2) or bunk beds (A 5887).

Large cave for restful hours: Rear bed with 210 cm of length // A 6977 and A 7877-2

The huge Overcab bed (210 x 165 cm) is loved by children and adults alike

Gourmet temple

Cooking is especially fun on holiday. The Trend comes with a fully-equipped L-shaped kitchen with equipment components you would otherwise find in more expensive models, such as the large 142 l high fridge or spacious drawers with Softclose technology.

Much cooking fun for the whole family in the L-shaped kitchen with lots of work surface and ample space and storage // A 7877-2 | Torcello

The 3-burner stove also allows you to produce gourmet meals at ease

O sole mio...

It's a good feeling to know that your private bathroom is only a few steps away. Whether for a quick refreshment during the journey or daily personal hygiene on holiday – the Trend gets top marks for a lot of practical ideas!

Huge bathroom for the whole family with separate shower // A 7877-2

LOW PROFILE AND A CLASS

PULSE

Pictures on the following pages partly show elements of the Gran Turismo equipment package at extra price.

PLUS FACTORS

+ High payload capacity despite being licenced for 4 persons at 3.5t total weight
+ Harmonious light composition Light Moments for many emotions and good spirits in the Pulse
+ Further development of the Dethleffs design language for more openness, brightness and clear forms and lines
+ Innovative Maxi-Flex overhead locker with soft opening and intuitive operation
+ Outstanding comfort by IsoProtect Comfort floor

What would touch your heart?

It is clear that while looking for a new motorhome – your new family member – there are convincing numbers, data and facts to be taken into account. But what would happen if the list of Pulse benefits have already convinced you?

Is there anything else what would touch your heart? A harmonious and clear ambience which will become centre of balance by the right light composition? Than it will be your harmony – Your Pulse.

Switch the mood on and the routine off

The **interplay** of the single **light levels** creates a fully new **room quality**.

Gabriele Allendorf, Light Expert

Not all light is alike. In addition to the functional character the light impacts our feelings, our biorhyhtm and even our health. Together with Gabrielle Allendorf by Light Identity we have perfectly produced the positive charisma of day and artificial light in a motorhome for the first time. And thanks to the four harmonious light levels we have created an energy source for the whole family: the new Dethleffs Pulse.

1. Ceilling Light
Lifts up the ceilling – same as the mood.

2. The Function Light
Genuine and straight: the spotlights in the kitchen, the lounge and sleeping area.

3. Wall Light
Sensation of openness.
And warm feeling of comfort .

4. Floor Light
Chill-out area: cozy and very functional.

Additional information can be found at: **www.dethleffs.co.uk/motorhomes/pulse**

Pulse
Low Profile

With the Pulse a new design era of the Dethleffs Low Profile models begins. The aerodynamic cab with a new T-hood elegantly go over to the conversion, whose harmonious alignment has a perfect finish in the re-designed rear.

All Low Profile layouts are available with the optional pull-down bed.

T 7051 EB & DBM | Dance

Pulse
A Class

Travelling with the Pulse A Class is an adventure; That is provided by the Panorama windscreen with a grandious view to the outside and the perfectly noise-insulated dashboard. The exterior has been totally re-developed and describes a new Dethleffs design language, which does not only have a beautiful look but also offers many practical advantages.

Standard is the XL pull-down bed with an elastic 3D bed frame that can be adjusted in degree of hardness. The high-quality mattress is made of climate regulating material.

I 7051 EB & DBM | Beat

Pulse Gran Turismo – the synonym for comfortable travelling!

The optional Gran Turismo (GT) package comes with a large number of exclusive equipment components such as leather steering wheel, alloy wheels and the option of the entrance door with central locking function. A unique identifying feature for the automotive GT design is the red skid plate – just one of many details of the extensively refined exterior and interior designs.

Automotive cockpit with leather steering wheel, Aluminium applications and dashboard with Chrome rings. An important safety feature are the driver and passenger seats

Recognition feature of the Gran Turismo package: The Skid plate in red

Safe and well-insulating: The dark framed windows

Healthy sleep ...

... means at Dethleffs: modern sleeping systems as well as cosy and functional bedroom layouts. In the Pulse you have the choice between lengthwise installed single beds (optionally available in two heights) or a double bed. Which variant you do prefer is a queston of your individual taste and requirement.

All of the beds come with modern sleeping technology that is designed in Switzerland. The specially developed 7-zone mattress is made of climate regulating material.

The over two metres long single beds can be connected in the head section and can be also converted to double bed // T/I 7051 EB

Welcome storage space under the double bed. These beds come with height-adjustment as standard - all DBM and DBL layouts // 7051 DBM & DBL

The height-adjustable King size bed is comfortably accessible from three sides and is with 160 cm wide. Tall wardrobes are located on both sides and small storage compartments for e.g. glasses or handkerchiefs. In addition the compartments are equipped with a 230 V or USB power outlet for charging your mobile phone // 7051 DBM & DBL

COOKING

Bon appétit

The Pulse offers more in the kitchen! The intelligent Gourmet kitchen uses the existing room in the best ways. That is the reason why the cooker cover is split. Whether you need one, two or three hobs – you only uncover the ones you really need and the others provide additional working surface. Depending on layout you will benefit from the large fridges with 142l or 190l including a freezer compartment.

The functionnal kitchen smoothly goes over to the lounge area // I 7051 DBL & EBL

LOW PROFILE AND A CLASS

MAGIC EDITION

PLUS FACTORS

+ Extensive equipment packages that save you money
+ Low vehicle height (294 cm)
+ Internal height 198 cm
+ Large fridge/ freezer combination with 190 l incl. 35 l freezer compartment
+ 5th belted seat is optionally available in single beds layouts
+ Power-saving LED light concept with modern, indirect illumination
+ 70 cm wide living door with comfortable and low positioned Coupé entrance
+ One level floor construction from cab to bathroom

Enchantingly different!

The exclusive Magic Edition models will enchant you with their fascinating and extravagant look which emphasizes the exceptional design and features.

Magic Edition also means luxurious equipment at a reasonable price! The extensive Magic Edition equipment package includes numerous standard options such as the 190 l fridge/freezer combination, cab air conditioning, leather steering wheel, 16" Alloy wheels, flush-fitting windows and much more.

Magic Edition
Low Profile

T 2 | Puritani

With its sporty lines and the low overall height of only 294 cm, the Magic Edition Low Profile appears particularly dynamic. The practical side effect: even when driving over mountain passes or through small villages where balconies or rocks may make the road narrower, you can enjoy a safe and relaxed journey with the Magic Edition Low Profile.

Magic Edition
A Class

I 3 | Tizio

Sometimes the journey is the reward – especially with the MAGIC EDITION A Class models. It all starts with the driving experience: comfortable pilote seats with integrated seatbelts, high-quality cab dash, and the perfect all-round view through the Panoramic windscreen – you will enjoy every mile.

The driver's cab is not only elegantly and practically designed, it also shields the rest of the vehicle from engine noise. A pull-down bed is discretely integrated into the cab ceiling as standard.

Like sleeping on air

The most popular sleeping room layout among motorhome enthusiasts is the single bed or the queen-size bed. Whichever version is the best for you depends on your individual demands. Regardless of which variant you opt for both will offer you an optimum sleeping comfort with the innovative 7-zone mattress made of climate regulating material and the matching wooden slatted frames which makes every holiday like a dream.

A Class with pull-down bed: The 150 cm wide pull-down bed is well integrated into the cab. Advantage: When the bed is pulled down you still can use the seating lounge

The princely dimensioned Queens bed can be comfortably accessed from three sides and on top it is height-adjustable for an optimal use of the rear garage // T/I 3 DBM

The spacious single beds in Magic Edition guarantee an undisturbed sleep. With the additional cushion sets they can easily be converted to a huge double bed across the whole width of the vehicle // T/I 2

COOKING

Star kitchen

Want to create something special for dinner? Then try out the smart Gourmet kitchen centre with spacious drawers and 3-flame-cooker with electrical ignition and extra large work surface.

Always on board: The raised fridge / freezer combination with separate freezer compartment and with 190 l volume – perfect for long holiday!

The Gourmet kitchen offers sufficient storage room. The Plexiglas backwall is modern and easy to clean

The reverse side of the sink cover is a cutting board with a juice groove

BATHROOM

Spa Oasis

The bathrooms are not only designed to be very comfortable with wood décor and elegant high gloss sink, they also come up trumps even when it comes to practicality: Large mirror surfaces, plenty of storage space, towel hooks and much more are of course included. Especially chic are the black high-gloss surfaces of the washbowl and the shower fitting holder. The model T / I 2 comes with a sanitary room with separated shower and the T / I 3 a large bathroom extends over the entire width of the vehicle.

Maximum elbow room! The large bathroom is located across the entire vehicle width and can be separated from the living room by a robust door // T / I 3

LOW PROFILE AND A CLASS

ESPRIT

Esprit EightyEight

PLUS FACTORS

+ Extensive equipment package with many benefits for the 88th birthday of Dethleffs
+ Standard 2.3 l Multijet Euro 6 engine with 150 BHP and Maxi chassis with 4.5 t of authorised total weight
+ Optimal winter suitability due to IsoProtect Plus function double floor and frost-proof installation.
+ Ideal driving characteristics: Premium broad gauge low platform with 145 mm lowering and weight increase to 4.5 t
+ Standard drop chassis extension for particularly high garages (250 kg load capacity) or rear storage compartments
+ Dethleffs Naviceiver incl. Navigation, DAB+ radio receipt and display of operation panel in the cockpit

Comfort at any time of the year

The Esprit Eighty Eight uniquely combines impressive, modern design with the excellent comfort of a luxury class. This includes being able to use it the whole year round: With the new IsoProtect Plus function double floor all models are not only suitable for winter use but are absolutely winterproof. In addition to that the Dethleffs Lifetime Plus conversion technology guarantees highest intrinsic values.

Icily calculated advantage model for the 88th company birthday of Dethleffs
The gain of comfort is already visible in the cab, with automated air conditioning and the high-quality cockpit with Chrome and leather elements. But also in the living room you will find many standard plus factors which are exceptional for a motorhome of this class.

Be inspired by the following pages and take a look at the detailed specification brochure or take a look online. There you will find all of the attractive package components of the Eighty Eight Edition.

Esprit
Low Profile

T 7150 | Amaro

It is one of the trendiest Low Profiles in the motorhomes scene, offering first class living comfort. Neat lighting elements in the plinth, kitchen cabinets and overhead lockers provide a particularly atmospheric ambience.

The L-shaped seating is spacious and comfortable, with a free-standing table that can be adjusted both horizontally and vertically. The large panoramic roof windows in the cab hood and above the seating area create an impressive band of light which transforms the vehicle interior into a light-filled space.

Esprit
A Class

I 7150 | Skylight

Make traveling fun with no compromises when driving with the perfect circumferential and huge windscreen! It stays clear even if it rains or it is cold outside, as an additional warm air hose of the heating prevents from misting or freezing.

Experience uncompromising comfort on entry to the cab and enjoy the luxury feeling in the lounge under the large skylight.

Holidays at last!

The SleepWell bed system ensures a good night's sleep in single or king-size beds. The advantage of this bed variation: getting up and lying down is especially comfortable and can be done without disturbing your partner. If desired, alternative single beds are available which are raised up to accompany a rear garage housing an e-bike or scooter. We have developed a lower overhead locker especially for this option. In this way it is possible to have overhead lockers go all the way round with the appropriate storage space and enough headroom despite the high beds.

Under the N/S single bed there is a useful multi-functional compartment for stowing different utensils. It is accessible from inside and outside and illuminated by LED

Sleeping comfort at its best: 195 x 150 cm bed size and with electrical operation (option)

It doesn't get any more comfortable. The king-size bed is accessible from three sides and so low that getting in and out is quick and simple. N/S and O/S there are tall wardrobes // 7150-2 DBM

Culinary delight

The Gourmet kitchen in the Esprit Eighty Eight is certainly an eye-catcher. It combines an attractive Swing design with well-thought-out functionality. This includes, for example, a place intended for a coffee machine at the back – of course with 230 V power supply.

Abundant storage space is offered by the large drawers with automated central locking. The extractor fan vacuums unpleasant odours of the vehicle interior

Practical: Multiflex rail system with several different integrated hooks

Refreshing room

The large showerhead in combination with the high-pressure water pump promises showering comfort like at home. Lots of wood décor, high-gloss surfaces and chromed bathroom accessories round off the sophisticated appearance of the Esprit bathroom.

For maximum privacy, the spacious bathroom can be completely closed off from the living area and bedrooms in the DBT models. Large mirror surfaces also underline the impression of space

A touch of luxury in bathroom! Bathroom accessories belong to standard equipment

Your selection of soft furnishings

Amaro

Goa

Real leather Skylight (option)

Master Gloss Cream

The holistic ambience provided by the indirect illumination. It invites to relax during the evening hours and supports the cosy TV hours in the L-shaped lounge. For that you will get a standard 22" TV as it is included in the big jubilee package as standard // Goa

Dethleffs celebrate their birthday with the Esprit Eighty Eight special edition with many extras on the exterior, which are more than unusual like the shapely rear moulding including the roof rails. The alloy wheels highlight the sporty driving features of the motorhome with its 150 BHP.

A CLASS AND COACHBUILT

ALPA

PLUS FACTORS

+ Huge Panoramic U-shaped lounge with a great space for enjoying meal times and relaxing
+ Great single beds comfort with easy access
+ Large and spacious double floor can also be loaded from the tail side (garage door with one-hand operation)
+ Premium broad gauge low platform (Fiat)
+ Winter-proof: Heated double floor with freeze-protected water installaiton
+ Warm water heating is standard

Muuuch room feeling

The Grand Alpa shows at first sight that it has not looked for a pragmatic room solution but for a living environment. In the 360° U-shaped lounge you can calmly put up your feet and have a wonderful view to the outside through the panoramic windows. The chic wall combination with integrated showcase (not for A 6820-2) is located next to the panoramic window and offers many individual possibilites.

The large single beds in the Overcab are easy-to-access by using the wide fold-away stairs. The beds of the Alpa A Class 7820-2 you will find on our website

Exclusive Gourmet Plus kitchen taken over from the Dethleffs Premium Class comes with large drawers and XXL fridge / freezer combination

Relaxing while watching TV, enjoying a glass of wine or inviting your friends for dinner? The huge Panoramic U-shaped lounge becomes a centre of cosy hours
// Welsh White | Skylight (option)

The most comfortable apartment on wheels

The story of success of the Alpa motorhomes for couples goes on! Most generous space conditions let you forget that you are not in a holiday apartment but in an outstanding motorhome with great atmosphere and comfort.

Also the shortest Alpa shines with a huge U-shape lounge and much elbow room // A 6820-2 Virginia Oak | Welsh White | Goa

The stylish and modern wall combination with a beautiful showcase (not for A 6820-2). The innovative illumination system creates an atmosphere such as at home and lights up the walls and curtains // Master Gloss Alaska White (option) | Amaro

Your spa with much daylight and great comfort
// A 7820-2 & A 9820-2

FRIENDSHIP & FAMILY

Welcome to the family!

As a Dethleffs driver you automatically belong to the big Dethleffs family. During our Family Meet & Greet events in Isny you will get to know the city of Arist Dethleffs. When we are together we exchange views and spend wonderful hours on trips and celebrations. (Provided that you are member of one of the official Dethleffs Clubs).

Join our Family Events, we are looking forward to meeting you!

Dethleffs Family Foundation

A good friend is there when help is needed. And in the camping family everybody helps each other. That is the reason why we support some projects which are related to families who are in need. For example with cost-free camping holidays in permanent camper caravans. Or the rolling kitchen for healthy eaters. In addition we support the the Teenager Camp of Pater Berno in Romania.

Help with us! Donate for our projects and make the families in need happy.

Dethleffs Family Foundation

We realise holidays – also for families in need

Santa Claus visits orphanages every year and make the childrens' eyes light up again

In the Teenager Camps of Pater Berno (†) the Romanian children get new perspectives

Family-friendly

Being a friend of the family Dethleffs integrated many smart equipment features in their motorhomes for the best time of the year with your family.

Too much luggage? Not with us, as the voluminous rear garages are real storage wonders

Pull-down bed: price-beneficial fixed bed variant in the Trend and Pulse Low Profile models

Child-proof: Isofix bracket for child seats are available in some of our motorhomes

All registered seats to driving direction are equipped with a 3-point safety belt and steady headrests same as in car industry

Safe all-round!

In a Dethleffs motorhome, you can start a long holiday trip with a secure feeling. Many equipment components, as well as special technical refinements simply make our motorhomes safer – this starts with ESP, which is standard on board at Dethleffs.

For over 23 years the Dethleffs driver training for beginners and professionals has been held regularly at the end of May

Safety note for four-legged friends: please fasten the seatbelt. A safety harness and cosy place to sleep ensure that your dog can travel safely with you (option).
www.dethleffs.co.uk/dog-on-board

Standard safety features: The life-saving ESP is standard in Dethleffs motorhomes!

Other important driving assistance systems:

ASR (anti slip regulation) – prevents the wheels from spinning when starting on a slope.

Hill Holder – assists the driver when starting on a slope.

HBA (hydraulic brake assistance) – emergency brake assistance. The system recognises an emergency stop and reinforces the pressure on the pedal, if necessary.

Roll-over mitigation – reduces snaking movements and improves the stability in curves.

Hill Descent Control – helps to maintain a desired speed on steep descents (up to max. 30 km/h), without constantly having to brake.

Broad gauge chassis – (Fiat or AL-KO) for a safe trip with excellent driving characteristics.

Not without my family

The story of Dethleffs is the story of a man and his great idea. It is about Arist Dethleffs, a family man, who creates the first caravan in Germany at the beginning of the thirties – and he calls it very simple "Living Car". Wherever the family Dethleffs were they were surrounded by many people.

In the course of the times the name Dethleffs has been becoming the epitome for competency and invention for caravans and motorhomes because of a great number of developments and smart ideas. Models and program lines with distinctive profile. Many of them became classic idols. With more than 88 years' experience, the high quality level and the continuous exchange between Dethleffs, the motorhomers and the partners enabled Dethleffs to become the friend of the family. And perhaps the reason of success is the lively transfer of know-how that results in flexibility and innovation of the brand Dethleffs since 1931.

The eventful story with many interesting images from over 88 years of Dethleffs Caravanning are presented on: **www.dethleffs.com/history**

RELIABILITY & SERVICE

Dethleffs Lifetime Technology

The Dethleffs Lifetime technology describes the interplay of all innovations from 88 years' experience in production of leisure vehicles which guarantee you reliability in any weather condition and winterproofness for many comfortable holidays at icy temperatures. If you go for a Dethleffs you also go for a reliable partner with astonishing attention to detail – even on invisible spots of your motorhome.

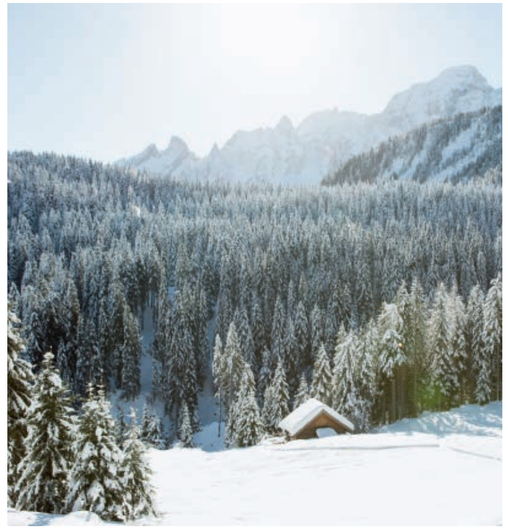
Don't get caught in the cold



Dethleffs Lifetime Plus
Today the body construction in many models is a sign of quality that stands for maximum durability. This innovative design combines an absolutely rot-proof wall construction with modern insights to create a healthy indoor climate: Walls, roof and floor are constructed entirely without cold spots or wood insrets.Instead, rigid polyurethane struts ensure a high torsional stiffness.

Strong GRP panels (glass-fiber reinforced plastic) on the roof and floor protect against damage from outside from hail, stones, salt water, etc.

An extra thick layer of high density, hydrophobic, i.e. waterrepellent XPS foam ensures excellent insulation properties.

No material is better suited for impact sound insulation than plywood. And even while driving, a lower noise level can be achieved. Also, the possibility of installing underfloor heating ensured.

Lifetime Smart
Our Globebus, Trend (T/I) and Pulse ranges come with the rot-proof Lifetime Smart floor construction. PU struts are also used here instead of wood, and with thick GRP panels to protect from damage!

Winter camping for everybody!

The Allgäu - Dethleffs headquarters since 1931 – is a popular winter destination with its long winters and lots of snow. Not for nothing does Dethleffs have the reputation of being true winter expert. You recognise this from standard features such as the Dethleffs Air Plus overhead locker-ventilation and a particularly well insulated living area, but also from the fact that it is possible to make vehicles absolutely winterised without a double floor.

A unique specialty of Dethleffs is the optional winter comfort packages with which real winter fans can enjoy winter camping in icy temperatures – even without a double floor vehicle!

Optional warm water heating
The powerful Combi 6 E fan heating comes as standard and can heat the interior of Dethleffs motorhomes in a flash. In all models (not for Globebus, Trend A 5887 and 6977) a warm water heating system can also be installed, if desired! This guarantees a warm and cosy feeling like at home, and works without fans. Ideal for people with allergies! The Alpa range comes with this comfort as standard.

Experience winter camping in a new light - with winterised vehicle technology from Dethleffs. **www.dethleffs.co.uk/winterproof**

Healty indoor climate

Blinds: insulation and protection

Breathable textiles

The AirPlus system avoids any condensation behind the lockers

When the warm air quickly cools down the moisture is the result – in the motorhome it is always on the exterior wall when it is very cold outside. With the AirPlus system we ensure that the overhead lockers are ventilated and so an air circulation in the room will avoid the condensation. The result: Healthy room air without mould formation or mould spots.

Forced ventilation in the vehicle is required by law to prevent an excessive CO^2 level in the living area. The Dethleffs engineers measure each model individually to determine the ideal number and distribution. This is more complex than a general calculation, but it guarantees an optimum balance between forced fresh air and CO^2 concentration.

The textiles used in the living room and wood paneling on the roof and side panels are breathable and so can balance the fluctuating moisture density of the air inside, without harmful condensation forming.

Engineering skills from Germany

Water management concept
Unobstsructive but extremely important when things get serious – available in almost every Dethleffs model. This water management concept specifies that the hose pipes can only be interrupted at these distribution points. This means that connectors in the hoses which are mostly to leak do not exist. And when it comes to a leakage it will be much easier to locate and to repair it because the distribution points are easily accessible.

Water drainage
As part of a clever water management system, rain water from the roof is directed through predefined channels.

Rain water on the roof is directed through predefined channels

The water points are directly supplied with water by the central water distributor

Body construction free of cold bridges

Stabilizing dowel connection

Cold spots? Not with us!
Wall, roof and floor elements are connected to each other at Dethleffs without the use of continuous metal profiles. This prevents the formation of metallic cold spots in the interior – without additional insulation – which cause condensation and unnecessary heat loss.

Torsionally stiff thanks to dowel technology
In order to achieve optimum torsional stiffness of the structure, we connect the side walls and floor panel with polyurethane plugs as thick as your finger. In this way, shearing forces are completely eliminated even under extreme loads.

Sleep like at home

Dethleffs equip their motorhomes with 7-zone mattresses made of climate-regulating material. Developed in Switzerland, this innovative high-tech material is considered a milestone in foam technology with unique advantages. Combined with our ergonomic wooden slatted frames we can quarantee oustanding lying comfort – all night – all year round!

A holiday is only really enjoyable if you are able to sleep soundly and well

On **www.dethleffs.co.uk/sleepwell** we inform you in detail about the unique advantages of the sleeping system

Ergonomic seat comfort

Being on the road for hours can stress your back, and that is the reason why we attach a great importance to ergonomic and comfortable seats. Dethleffs therefore employs pilote seats for driver and front passenger with excellent ergonomic properties in Low Profile and Coachbuilt motorhomes as standard.

For Low Profile and Coachbuilt models Dethleffs employs Pilote seats matching upholstery design with excellent seating comfort (option for Trend)

A Class models come with high-quality pilote seats with an integrated 3-point seat belt with an optimal belt position and maximum elbowroom

Better and better!

All those who buy a Dethleffs vehicle will receive a well-engineered vehicle with high quality. Our factory in “Isny im Allgäu” is one of the most modern factories in Europe with qualified and motivated employees. Quality made in Germany for over 88 years this has been our trademark. This combination of experience, modern know-how and customer-focused practicability is unique in this industry.

We do not keep our cards close to our chest. See the production of our motorhomes – we offer a weekly factory tour! Further information you will find at: **www.dethleffs.co.uk/factorytour**
