GENERATION

The caravan with more equipment than ever

Dethleffs
A friend of the family

Extras as far as the eye can see.

Dethleffs special model **GENERATION** simply gets more out of the next vacation: more standard equipment, more comfort, more price advantage. The all-inclusive model can certainly compete with higher-priced models; technically, functionally and visually.

The **GENERATION** is not only competitive in terms of price performance, the new Dethleffs design language makes this all-rounder hard for anyone else to achieve. Discover the turnkey caravan full of extras that make active couples and the whole family perfectly happy.

Further multimedia information can be found at www.dethleffs.com/generation and on our social media channels.

More Inclusive Highlights

- ✓ **Powerful warm air gas heating with integrated 10 l water boiler** – for cozy warmth at any season
- ✓ **Alloy wheels** – underline the stylish appearance
- ✓ **Spare wheel** – always on board for your safety
- ✓ **Additional load capacity** – so you can take everything you need and more on vacation
- ✓ **Robust corner steadies, including big feet** – to ensure the necessary stability
- ✓ **Draw bar cover** – practical and good looking at the same time
- ✓ **Indirect ambient lighting** – brings an extra portion of flair on board

Sophisticated Exterior? In the GENERATION it is inclusive.

The Dethleffs **GENERATION** stands out from the competition at first glance. The modern design and the extensive inclusive exterior are unique in this price range. With its standard additional load capacity, the high-quality alloy wheels and 70 cm wide entrance door with Coupé entry; the **GENERATION** sets new standards in terms of comfort.

The striking **rear moulding** is normally only found in luxury classes.

Pleasantly low: The **Coupé entry** makes getting in and out easier for both adults and children.

The **smooth sides in White** look fresh, are easy to care for and have an especially long service life.

Whether for bulky camping furniture or heavy purchases – the **70 cm wide entrance door** is open for maximum comfort.

The plus on extra equipment

-  **Front window** – ensures that extra portion of brightness inside
-  **Additional access locker door** – allows even easier loading
-  **Gas pressure regulator with crash sensor** – interrupts the gas supply in case of an impact for your safety
-  **Third child bunk bed** – so everyone has their own sleeping space
-  **7-zone WATERGEL mattress made of climate regulating material** – like sleeping on air
-  **Flat screen 22" incl. DVD player and receiver** – for cozy movie nights
-  Additional information about optional fittings you will find in the separate specification sheet.

» Believe your eyes – the interior design of the **GENERATION** not only looks very modern, it is even included as standard. The clear and highly functional interior concept convinces with new design elements, ambient lighting and ombre effect overhead lockers. We are sure that the **GENERATION** will put a big smile on your face.

Heavy wood decor was yesterday. Today is **friendly and modern ambient** thanks to the new Dethleffs design language.

The **ergonomic overhead lockers** with ombre effect literally clean up the design of the **GENERATION**.

One for all: **The powerful warm air gas heating** heats and warms the process water at the same time.

Indirect **ambient lighting** brings an extra portion of flair on board.

The price is hot: With the caravan **GENERATION** into the summer retreat
