c'joy

» On the road in Bella Italia: experience La Dolce Vita amid unspoiled nature – perfect for mountain and water sports. In the evening everyone meets up for the “Passeggiata”, the evening stroll on the beach promenade or a walk in the historical center. It is impossible not to like Italy.

Packing up the bike and heading for Lake Garda – my idea of the perfect long weekend. The c'joy is ideal for me; being small and compact it can easily cope with the Alps and narrow Italian streets – and you only need a standard Class B licence. It has no unnecessary bells and whistles, but nevertheless everything I need is on board.

Marcus Hengge • Marketing, mountaineer

PLUS FACTORS

- + The perfect caravans for beginners: affordable and with everything you'll ever need on board!
- + Never fear the narrow streets: one of the smallest caravans in its class with 2,12 cm of width
- + Lightweight: It can be towed with a small car with usual driver's licence of Class B (depending on towing vehicle)
- + Protects you from bad weather: roof, front and rear made of robust GRP

CAMPER

» Mountain meadows full of dandelions shine in full yellow, the scent of wild flowers, grasses and herbs invite you to linger. And also the melodious ring of cowbells – all that makes the Allgäu the perfect holiday region for the whole family.

I think it's so romantic that Arist Dethleffs invented the caravan so that his family would always be with him on business trips. You also notice right away that a lot of love and experience has gone into the Camper. And you won't find so many family-friendly layouts anywhere else. Every year, we put one of them through its paces and give our feedback to our colleagues.

Anita Lorenscheit • Press and public relations, live wire and family organiser

PLUS FACTORS

- + Enough space for every child: a selection of family layouts with bunk beds
- + Better safe than sorry: exemplary Dethleffs safety equipment
- + Ready to go thanks to comprehensive standard specifications
- + Modern interior: three classic upholstery versions
- + Steeled for all needs: even short caravans less than 7m available

Real holiday love

» With its extensive standard equipment, abundant storage room and a wide range of bunk bed layouts, the Camper is the ideal caravan for all those of you who love adventure. The standard safety equipment enables carefree travelling comfort. Modern safety components include: high-quality branded chassis, axle shock absorber and stabiliser. COOKING

Holiday kitchen made easy

» Here the small and big caravanners become full: on three cooking hobs with electrical ignition delicious meals can be perfectly prepared even for a big family.

The fresh ingredients are stored in the large fridge. Bottles and spices can be easily placed in the practical apothecary pull-out. Dishes, pots and pans have enough space in voluminous drawers.

By the way: the warm water supply comes as standard.

Plentiful storage room makes this the perfect leisure time base for active holidays. Camper models provide a lot of space for families or spontaneous visitors. The seating lounge can be quickly converted to a cosy double bed thanks to the telescopic one-leg table. And if you need even more space you can have a closer look into the XL variant of the Camper: the twin-axle models with 2,5m of width and over 8m length (e.g. Camper 730 FKR) which offer the comfort and elbow room of a holiday apartment on wheels!

The bunk beds have a maximum load capacity of 80 kg and so are also suitable for larger occupants. To increase the available space, the lower bunk beds can be folded up-wards (not possible with the optional triple bunk bed or the 730 FKR model). With lengthwise installed bunk beds a big playground can be created in the interior. Our transverse bunk bed layouts feature a rear garage where you can store your bulky holiday items.

FRIENDSHIP & FAMILY

“Not without my family”

» Arist Dethleffs, the inventor of the caravan was a family man. He wanted to take his small family with him while being away on trade trips. In short he invented the “living car” for travelling together. Adapted to the wishes and requirements of his family. The caravan functioned as the atelier for his wife Fridel.

We have been honing and perfecting Arist's original, groundbreaking idea of the ‘rolling home’ for over 89 years. And at the core of our development is the vision: **FAMILY and its needs.**

RELIABILITY & SERVICE

The cradle of the caravan

» Arist Dethleffs was a typical “Mächeler” – this word from the Allgäu describes a tinkerer with heart and mind. The craftsmanship here is tradition, no wonder, that the cradle of the caravans stands in Isny. For over 89 years we have been continuing the vision of the “living car” in Isny. In doing so the reliability of the vehicles still takes centre stage – high-grade components, careful production and permanent quality checks make sure that your vehicle “made in Allgäu” faithfully accompanies you.

“Always better” is the motto of the Dethleffs production. Modern technology and experienced, motivated employees produce reliable, high quality

All possible comfort

» Your home on wheels needs to have the same comfort as at home. Restful nights are guaranteed by the Dethleffs SleepWell system.

When cooking you do not need to compromise while being away from home. The Gourmet kitchens come with all the required appliances you need for cooking delicious meals. Warm water supply comes as standard (from Camper range). And when washing the dishes the old camping rule applies: one does the cooking and the other washes up!

Online you will find more information about the Dethleffs SleepWell system:
www.dethleffs.com/sleepwell

» With flexible slat frames and ergonomic 7-zone mattresses you will sleep like on air

» Cooking like an expert in the GourmetPlus kitchen (Exclusiv)

With every weather condition

» The Allgäu is the homeland of the hardest winter – and since 1931 also ours! As we still have the real winters, we mostly know what is especially needed for winter camping. All Dethleffs caravans are suitable for winter use as standard. With the ingenious Winter Comfort Packages your caravan becomes winter proof and is perfect for using during hard conditions like ice and snow. With this winter-proof equipment the bitter cold nights will become comfortably warm in your caravan.

Suitable for winter use: outdoor temperature of 0 °C the inner room can be warmed up to 20 °C.

Winter-proof: a completely cooled down vehicle must heat up within four hours to +20 °C at -15 °C outdoor temperature.

But safe!

» Your safety is of utmost importance to us and that is why we use reliable, branded vehicle components, trusted for many years. All of our caravans are designed for a speed of 100 km/h. The optional Dethleffs Safety Packages go even further – with stabiliser, crash sensor and smoke detector.

» Thanks to the AAA Premium brake the braking distance gets shorter

» The Dethleffs Safety Package is available as an optional extension. It offers you maximum safety with its stabilising system, crash sensor and the smoke detector
