Dethleffs Plus Factors – Explanation of symbols

In our Dethleffs motorhomes, there are a lot of smart ideas and a high level of specification that comes as standard. Here are the features which make Dethleffs motorhomes such a

great investment with corresponding symbols to look out for in each range. More information can be found at: www.dethleffs.com/plus-factors

Family benefits

Stay cool! Extra-large fridges with minimum 141 litres, plus freezer compartment

Stay cool! Extra-large fridges with minimum 190 litres, plus freezer compartment

Family-friendly: at least 4 sleeping berths without additional makeup

Added comfort

Ergonomic: Comfortable Pilote seats with height / inclination adjustment, integrated headrest and lateral support

Inviting: 70 cm XXL entrance door

Elegant kitchen centre with powerful burners and maxi drawers with central locking

“SleepWell”: Fixed beds with 7-zone mattresses and ergonomic wooden bed frames.

Put your feet up! Comfortable L-shaped lounge with free-standing table leg

Freedom of movement: Separate shower and the vanity unit can be connected to a big bathroom

Easy entrance: Thanks to lowered Coupé entrance step

Added equipment

Winter expert! Excellent winterisation thanks to the elaborate double floor construction

Winterproof: Heated double floor with frost-protected water installation and additional storage space

For a healthy indoor climate: Optimal rear ventilation of overhead lockers avoids condensation

King of storage: Particularly high rear garages thanks to Dethleffs drop chassis extension

More power: 95 Ah battery with AGM technology for higher performance, longer life and shorter charging time

More power: 150 Ah battery with AGM technology for higher performance, longer life and shorter charging time

Added safety

More safety: Electronic stabilizing program incl. important driving assistance systems (ASR, Hill Holder, HBA, Roll-Over Mitigation)

Safe on the road: AL-KO broad gauge low platform for secure and dynamic driving experience

Well protected: robust GRP roof for hail protection

Added longevity

Long-lasting: Rot-proof body construction without wood inserts and with GRP covered underfloor, roof and rear

Please note that the pictures in this brochure may also show alternative designs or options available at extra costs.

Welcome to the Premium Class

Our Globetrotter XL I and XXL A models set standards in terms of spaciousness, reliability, quality and winter use. To ensure this they are handmade in special production lines by experienced employees. You will immediately see the quality and care that reflects our 89 years of experience in the production of leisure vehicles, and you will appreciate these details on every adventure. We are sure you will fall in love with the new design and unbeatable specification.

All models are based on the new Dethleffs Lifetime Plus technology with a completely rot-free construction – that guarantees a very high re-sale value. In addition to that a modern double floor construction ensures an optimum of winter

suitability as the heated vehicle floor houses very important on-board technology and water supply installations so they are protected from frost, and at the same time the double floor provides ample storage room.

Yours,
Alexander Leopold
Managing Director

Safely on the move

The Dethleffs assistance systems for Fiat models

+ The new ESP (Electronic Stability Program) "Setup for Camping Cars"

The ESP is one of the most advanced electronic stability control systems in the vehicle. It continuously monitors the driving direction and wheel movement and, if necessary, brakes individual wheels or slows the vehicle by reducing power. ESP "Setup for Camping Cars" was specially developed for motorhomes. The system takes into account the conditions in a motorhome, in which the weight distribution and centre of gravity differ to those in commercial vans.

+ ABS (anti-lock braking system)

Detects locking of the braked wheel and reduces the braking force so that the wheel continues turning and maintains traction.

+ MSR (engine drag torque control)

The MSR prevents loss of traction with abrupt gear shifting.

+ HBA (Hydraulic Brake Assist)

The Hill Holder holds the vehicle securely on slopes when starting off.

+ HHC (Hill Holder Control)

The Hill Holder holds the vehicle securely on slopes when starting off.

+ Hill Descent Control

Hill Descent Control helps to maintain the desired speed when driving downhill without continuous braking, allowing the driver to concentrate fully on the steering.

Safely on the move

The Dethleffs assistance systems for Iveco models

+ ESP (electronic stability program)

The ESP constantly monitors the driving direction and wheel movement and, if necessary, brakes individual wheels or reduces the vehicle's speed by reducing power.

+ ABS (anti-lock braking system)

Detects locking of the braked wheel and reduces the braking force so that the wheel continues turning and maintains traction.

+ EBV (electronic brake force distribution)

Distributes the braking force optimally depending on the current load on the front and rear axles. The vehicle remains steerable even under heavy braking.

+ ASR (traction control system)

Maintains traction even when the drive wheels start to spin by reducing engine output and gently braking the spinning wheel.

+ HHC (Hill Holder control)

The Hill Holder holds the vehicle securely on slopes when starting off.

+ TSM (Trailer Sway Mitigation)

Detects snaking and rolling movements of the trailer and stabilises it via targeted braking interventions.

+ Telma Retarder

The Telma Retarder is an electronic eddy current brake that is installed behind the transmission in the PTO shaft. The smooth, jerk-free actuation of the Telma provides up to 90 % of all required braking and prevents overheating and wear of the service brake.

Optional Brake Systems

+ Active Lane Keep Assist (AEBS & City Brake Pro)

Optimum support for urban driving: Accident prevention at up to 50 km/h. The City Brake system begins operating at ≈ 5 km/h.

+ Adaptive cruise control (ACC)

Maintains the distance to the vehicle in front by regulating the driving speed.

+ Proactive Lane Keep Assist

Helps the driver to keep the vehicle inside the lane via additional steering inputs if necessary.

+ Rain Sensor, Light Assist, electric handbrake, Crosswind Assist, Tyre Pressure Sensors

Lifetime Plus Body Construction

The rot-free construction without wooden inserts used in all our models in the Premium Class has proved itself over the years and is now further improved. The name Dethleffs Lifetime Plus combines the new technology of long-lasting value stability with the most recent findings on healthy interior climate:

- + Walls, roof and underfloor are constructed entirely without cold spots or wood inserts. Instead, rigid polyurethane struts ensure a high torsional stiffness.
- + Strong GRP panels (glass-fiber reinforced plastic) on the roof and floor protect against damage from outside from hail, stones, salt water, etc.
- + An extra thick layer of high density, hydrophobic, i.e. water-repellent XPS foam ensures excellent insulation properties.
- + The 3 mm thick genuine wood panelling on the side walls and roof is both moisture-balancing and sound-absorbing.

Every Dethleffs motorhome comes with a 6-year water ingress warranty as standard!

(Annual, fee-based inspections are required)

- + For a healthy room climate: Optimal ventilation of overhead lockers avoids condensation.

Winter Camping de Luxe

Sparkling snow in the sun and amazing winter landscapes... you can enjoy all of this in your warm and cosy motorhome! We make your individual Winter fairytale come true by providing many technical solutions which are based on our 89 years' experience in manufacturing leisure vehicles.

Perfectly insulated walls, a high air circulation and good ventilation provide the perfect interior climate. Furthermore, we set our focus on a well thought out construction and innovative technology.

Warm water heating

- + Warm water heating creates a cosy atmosphere just like at home. That is because it works without blowers – ideal for allergy sufferers. In addition it is equipped with an automated drain valve and a stop valve for the sleeping room. Telemetric control via your mobile phone is available as an optional extra.

- + The integrated heat exchanger can pre-heat the engine to reduce wear and fuel consumption. Conversely the engine heat can be used for supporting the cab and habitation area heating.
- + Fast windscreen defrosting via additional warm air duct of the heating in the dashboard.

Double floor

- + The high double floors of the Dethleffs Premium Class vehicles can be fully loaded and are accessible from inside and outside.
- + Heated double floor for frost-proof installation of pipes and water tanks. The radiant heat of the heating and the heating convectors also serves as underfloor heating.

- + Game-changing features you might not see – but you know work brilliantly! 1 – Intelligent 24 hr and warm water heating system. 2 – The double floor creates an all-weather, winterised room. 3 – Holiday luggage can easily be accessed from inside.

+ Ergonomic wooden slatted bed frames for healthy sleep.

Sleep like at home

Every motorhome in the Dethleffs Premium class comes with a 7-zone mattresses for the fixed beds. This innovative high-tech material made in Switzerland is considered a milestone in foam technology with unique advantages:

+ **Optimum body support:**

Excellent anatomic support of the body

+ **Climate regulating:**

High breathability for a pleasant and hygienic sleeping climate

+ **Climate resistant:**

First-class material stability even under the influence of heat and humidity

+ **Long-lasting:**

Optimal comfort, even after years of use

+ **Extremely light:**

Making the beds is easier than ever

Combined with our ergonomic wooden slatted frames we can guarantee outstanding lying comfort – all night – all year round!

At dethleffs.com/sleepwell we provide detailed information about the unique advantages of the new sleeping system.

Globetrotter XL I

All the perfect details in one model

Luxury motorhoming, with zero compromise!

The XL I A Class opens the door to the mobile luxury class. It exceeds even the highest expectations and is available in two specification levels.

It unites the quality and stability of the premium class with the playful lightness of modern leisure vehicle construction.

The entirely rot-proof construction of sidewalls, roof and floor is complemented with the lightweight furniture in contemporary design. The Gourmet Plus kitchen, top-of-the-range bathroom and the cosy lounge with its panoramic side window are unequalled.

The Globetrotter XL I Plus factors

- + Fiat Ducato with common rail turbodiesel technology, Multijet direct injection, Euro 6d temp engine (140 hp as standard)
- + 9-speed automatic transmission (option)
- + Premium low platform broad gauge chassis
- + Ergonomic SKA Pilote seats (option: SKA air suspension seats)
- + Large seating area with panoramic side window
- + Extra wide doors (700 mm) with electric closing mechanism and 2-point locking
- + Warm water heating with heat exchanger for engine pre-heating

Option

For me, the Globetrotter XLI is characterised by particularly high-quality workmanship and a touch of luxury. In addition, it contains our concentrated expertise when it comes to vehicle design, as well as many stylish details that meet the highest standards. I am always impressed and proud when a XLI rolls off our production line.

Globetrotter **XLi**

Dynamic Comfort

Unlike almost any other luxury motorhome, the Globetrotter XL I combines spacious living with design and dynamics. The first-rate premium broad-gauge low platform chassis, delivering real driving adventure, accentuates the sporty design. And that's why the XL I drives just as well as it looks: sporty, dynamic and absolutely safe. Even on winding country roads you will be safe and secure in its road handling and its anti-roll technology.

On the following pages we will show you all the other things the Globetrotter XL I has to offer.

Welcome to the mobile Premium Class!

Enjoy sweet dreams

For many people, getting a good night's sleep is an important part of a wonderful holiday. For those of you who need the space while sleeping or also want to invite friends along, the XL I its two large single beds is the ideal holiday companion. The single beds can be easily converted to a large double bed.

Not only will you feel comfortable sleeping in the new XL I but even gourmet chefs will have a lot of fun in the high-quality Gourmet Plus kitchen centre, and the large lounge offers enough space to enjoy a 7-course-meal in style.

✚ The single beds can easily be converted to a large double bed.

✚ A place for everything, with four wardrobes, all equipped with LED lights.

XL I 7850-2 EB

+ Almeria Ash Gloss | Platinum: Ample room throughout, from the lounge to the space and luxury of the sleeping area.

Enjoy luxury even while you sleep

A bedroom fit for the king! In the huge king-size double bed, even tallest people can get a good night's rest. Easily accessible from all sides, everyone can get into bed easily, and the spacious storage compartments under the bed can hold a lot of luggage.

The cosy lounge conveys a sense of space a few people would imagine possible in a motorhome. The extra large bathroom and the Gourmet Plus kitchen with modern furniture and lightweight technology complete the luxurious ambience of the XL I.

✚ Tall wardrobes for storing your clothes.

✚ Under the double bed there is a practical garage and some very useful drawers.

XL I 7850-2 DBM

+ For a better room feeling you can choose in favour of a low bed height.

Freedom in sight

The XL I is also generous when it comes to the view outside: the huge windscreen combined with the standard panoramic window provides a unique all-round view, flooding the lounge with natural light.

When the sun goes down the LED illumination with its ambient illumination and different light intensities for relaxing, entertaining and sleeping creates a pleasant atmosphere, whatever the occasion.

✚ Optional sun blinds. Electric cab blinds darken and insulate at the same time (optional extra). Manual blinds are standard.

✚ Almeria Ash Gloss | Bozen: For atmospheric evenings: ambient lighting (option).

+ **Almeria Ash White | Meran:** Enjoy the view through the huge panoramic side window! Here you see the lounge layout in lieu of a pull-down bed (option). In addition to the additional storage space this variant comes with two large panoramic skylights with an elegant roof lining.

Sleeping room

Do you prefer the comfort of single beds or the cosiness of a king-size bed? The XL I offers the best of both worlds!

The large, electrically adjustable pull-down bed which comes as standard offers two additional sleeping berths – invisibly hidden under the cab ceiling.

Highlights overview:

- + Two popular sleeping room layouts
- + Standard pull-down bed with electrical operation and 200 x 150 cm mattress
- + Ultra light, moisture and temperature regulating 7-zone mattresses for the fixed beds
- + Ergonomic wooden slatted bed frames for healthy sleep
- + Clever wardrobe solutions with spacious storage compartments
- + LED night illumination at floor level

+ Electric pull-down bed (200 x 150 cm) with high-quality mattress.

+ XL I 7850-2 EB | Almeria Ash Gloss: The two-metre long single beds are easy to access and are easily converted to large double bed.

+ The kitchen boasts a range of practical and stylish solutions, such as the rail system.

+ 190 l fridge / freezer combination, plus oven and grill (option).

Globetrotter XL I

Kitchen

With its exclusive Gourmet Plus kitchen, the Globetrotter XL I will open the world of culinary delight. Create delicious meals with local gathered on your travels – all part of the experience! And what you do not consume, you can take home with you, as there is so much storage space e.g. in the voluminous drawers with Softclose function.

Especially useful is the central locking which ensures an automated locking of all drawers after starting the engine, ensuring everything stays exactly in its place!

Highlights overview:

- + Domestic-style metallic water taps and extractor fan (exhaust air)
- + 141l fridge / freezer combination with auto energy selection (190l fridge / freezer combination with oven and grill (option))
- + 3-burner gas hob with powerful burners
- + Large stainless steel sink flush with worktop
- + Maxi drawers and apothecary-style pull-outs with Softclose function and electronic central locking
- + Seamless, easy-to-clean worktops, smoothly adjoining the wall
- + Dedicated space for appliances, such as coffee machine
- + Height-adjustable racks in overhead locker

+ Plenty of cooking fun! The Gourmet Plus kitchen brings together everything you need to cook up a storm! With plenty of elbow room and storage space to boot!

Bathroom

High-quality bathroom for holidays – a symbol for luxury. The XL I redefines that demand: With a stylish, yet practical bathroom with unbelievable elbow room maximum privacy. Its secret: by positioning the special door you can connect the shower cubicle and the toilet to create a spacious bathing oasis.

+ Wash bowl with dedicated space for all your bathroom utensils.

+ Spacious shower with Plexiglass doors, rain shower and optional ambient lighting.

Highlights overview:

- + Washroom and shower can be connected to a large bathroom
- + Large mirrored bathroom cabinet with all-around view
- + Sliding door for sleeping room, also with a mirror
- + Vanity unit with lots of space for bathroom accessories
- + Plenty of storage shelves
- + Towel hook, tooth brush holder and toilet roll holder in chrome
- + High-pressure water pump for home-from-home showering experience
- + Optional air vent system vacuums the air out of the toilet and prevents the unpleasant odours
- + Macerator toilet with 110l waste tank (option)
- + Roof fan with venting in passage way of the bathroom (option)

+ Lots of space and flexibility between living and sleeping rooms – plus a large mirror, creating an even greater sense of space.

+ Plus factors

- 1** Make an entrance! The fully equipped entrance area with many storage possibilities, illuminated handle and exclusive bar compartment.
- 2** For hot summers: The optional roof air conditioning comes with a power of 2400 W and efficiently cools down the interior even when the temperature is high outside.
- 3** Easy-to-use sound system with high-quality loudspeakers and Active Subwoofer delivers excellent sounds in the living room.
- 4** Optimum power supply (9x230 V socket, 2xUSB socket, 2x12 V socket).
- 5** Electrical and insulating blind (option). And fast windscreen defrosting via additional warm air duct of the heating in the dashboard.
- 6** Ergonomic SKA captain seats with integrated 3-point inertia safety belts. A very new comfort dimension opens the installation of air-driven seats. Travelling with more comfort!

- 7** Optional 7 inch Dethleffs Naviceiver with clear DAB+ radio reception, CD/DVD, USB and Bluetooth transmission. It navigates you to roads which are easy to drive for bigger vehicles. The information from the control panel is reflected on the display.

Also available:

- + The warm water heating creates a cosy atmosphere just like at home. That is because it works without blowers – ideal for allergy sufferers (see page 10/11).
- + Uniquely Dethleffs: Optional leather upholstery "Meran" in several colour variations.
- + The optional theft-proof safe keeps valuables.
- + High-pressure water system with powerful pump and domestic style tap fittings in the kitchen.

+ Exclusive entrance area with many high-quality details (1)

+ Pleasant cooling: Powerful roof air conditioning (option) (2)

+ Mobile phone & Co: 2 USB sockets (4)

+ Melodious: Perfectly created sound system (option) (3)

+ Electrical front blind (option) and windscreen defroster (5)

+ Multimedia: Dethleffs Naviceiver (option) (7)

+ SKA air-driven captain seats (6)

+ Plus factors

+ Elegantly integrated, electrical awning (option)

+ Repair-friendly: 2-piece GRP rear (1)

+ Two-piece GRP front with LED day-time-running lights (2)

+ Premium broad gauge low platform with tandem axle (3)

1 Fully-insulated two-piece rear made of robust GRP which is easier to repair.

2 Two-piece, repair-friendly GRP front with LED day-time running lights. If desired, a very bright LED passing beam can be ordered.

3 Safe travelling! Excellent road handling is assured with the premium broad gauge low platform with tandem axle in combination with a low vehicle gravity centre.

4 Central electric unit with second on-board battery, powerful charging device, high-quality transformer and automatic prevention of voltage peaks (option).

5 Large rear garage with a loading capacity of 250 kg. The floor is made of robust GRP and equipped with an anti-slip mat. The fixing loops can hold the luggage, bicycles or even scooters. Very handy: 230V power outlet (+1x 12V) for charging e.g. E-bikes. When it becomes dark, an LED strip illuminates the garage. Both garage doors are equipped with new locking for one-handed operation.

6 Double locked door (extra wide 70 cm) with window, electrical closing aid and flyscreen.

7 Perfectly accessible from inside and out, the storage compartment is 360 mm high and has heated double floor (details on pages 10/11).

No picture:

+ 2.3l engine with 140 hp (103 kW), optionally with 160 hp (118 kW) and 180 hp (132 kW). Optional engines 160 hp and 180 hp incl. start-stop automatic.

+ Victron Energy Digital MultiControl with operation panel located over the living room door (option) (4)

+ Victron Energy MultiPlus charging / inverter combination (option) (4)

+ Double floor with lots of storage space (7)

+ Large, LED-illuminated rear garage (5)

+ Extra wide conversion door with electrical closing aid (6)

Premium
★★★★★

Globetrotter XL I Premium

The XL I Premium version

The XL I is also available as Premium version and has even more to offer. Most of the optional equipment, like the complete Travel Package are already part of the standard specification.

In addition, there are extras that more than justify the title of "Premium". The first impression of the exterior with its elaborate paintfinish perfectly fits the image of a premium class vehicle.

+ **Almeria Ash Gloss | Bozen:** Premium ambient lighting: A clever illumination concept for living and sleeping rooms. Additional light is provided by the huge skylight in the living room and the powerful air conditioning ensures pleasant and cool air in the vehicle.

+ Panoramic skylight (1)

+ Central locking (4)

+ Bright LED low beam for more safety (5)

+ 16" alloy wheels (6)

Variety of choice

Exterior design | Upholstery

Design & Equipment – you have the choice!

Dethleffs offers a wealth of ways to put together your individual dream motorhome. Standard in the XL I is the Almeria Ash White wood décor with cream-coloured, easy-to-clean surfaces.

Alternatively, you can opt for a high-quality overhead locker doors with high-gloss wood finish and Chrome trim (Almeria Ash Gloss).

For both versions there are complimentary textile fabrics to choose from. You also can furnish your individual Globetrotter XL I with high-quality real leather Meran. The real leather is a natural product of the highest quality. This breathable leather feels sumptuous, yet fulfills the highest standards with its durability.

Globetrotter XXL A

Unlimited luxury

The Globetrotter XXL epitomises the special feature of the premium class with its confident appearance, the exceptional size and unique shape.

The interior is also created to the highest demands: absolute winterisation with the double floor and high-quality XPS insulation as well as luxurious standard equipment.

The Globetrotter XXL A Plus factors

- + Modern 3.0l Euro VI D engine (132 kW / 180 BHP)
- + IVECO chassis with rear wheel drive, twin tyres, different driving assistance systems, uprated cockpit and heated cab seats, height-adjustable steering wheel tilt system
- + Heated double floor with 360 mm height for frost-protected installation of pipes and water tanks. The radiant heat is also used as the under-floor heating (s. page 10 / 11).
- + Warm water heating with heat exchanger for engine pre-heating
- + Long-lasting Lifetime Plus technology (s. page 8) with 45 mm thick wall and roof construction.
- + Autarky master with large 150 Ah battery and 230 l water tank

Option

» If you want to supersize your travel experience, you simply cannot go wrong with the Globetrotter XXL A. For us engineers, it is especially important that the inner values and the design meet the most demanding standards. We have also equipped it perfectly in terms of winter resistance – with a modern, heated and frost-proof raised floor and highly efficient XPS insulation. And even the high-quality interior, which ensures absolute privacy, can be described as luxurious.

EURO VI D
emission standard

*Globetrotter***XXLA**

Reliability takes shape

A motorhome for every season and for every adventure! A motorhome that delivers both style and practicality in equal measures. The Globetrotter XXL A is just the thing for you!

The Iveco Daily chassis with twin tires can be optionally upgraded to 7.2t – this in combination with the huge storage room, means any concerns regarding payload are now a thing of the past.

The powerful 3.0l (Euro VI D) common rail diesel engine with 180 hp (132 kW) (210 hp / 154 kW optional) provides plenty of power, even when towing a trailer weighing up to 3.5t.

This is a motorhome that knows how to impress, with its excellent and unique qualities – learn more on following pages.

Luxury with a visionary design

When it comes to space, the XXL is opening up a new world – one of maximum space and sleeping comfort. Access to the cab can be partitioned with a sliding door – a real bonus in terms of privacy and for camping in winter.

An increasingly popular wish from our customers is for spacious single beds. The XXL A 9000-2 meets this demand and provides a lot of freedom of movement while sleeping. The single beds can still be easily converted to a large double bed.

✚ The cab can be separated from the living room by a wooden sliding door. Ideal to keep out the cold and the heat – as well as unbidden guests, as the door can be locked as well.

✚ The long single beds are connected at the end of the head section – ideal for those who sleep on their front. Additionally, you can create a huge bed (s. page 54).

XXL A 9000-2

+ Almeria Ash White | Platinum: U-shaped lounge for convivial evenings: The passage way to the cab can be closed off with additional wrap seating.

Pure comfort

The new layout of the Globetrotter XXL A comes with a huge King bed in the rear. The royal bathroom can be partitioned from the living room by the special robust door.

As a result a large bathing and dressing room is created. Your holiday clothes can be stored in the high wardrobes.

✚ Cosy double bed for restful nights and relaxing hours for two.

✚ In the high wardrobes N/S and O/S your clothes are perfectly arranged.

XXL A 9050-2

✚ **Almeria Ash Gloss | Meran:** The inviting lounge and the lateral bench can be easily converted to a large U-shaped lounge (option). Ideal for putting up your feet or for enjoying convivial evenings. For entertainment fans a 32" TV can be pulled downwards (option).

Kitchen

There is zero compromise in the Gourmet Plus kitchen. You will find only high-quality components such as very large shelves with maxi-drawers and wider pull-outs for easier loading.

Drawers are softclose and the central lock is automatically activated when starting the engine, so drawers will not open during the drive.

The gas stove with powerful burners is a dream for all aspiring chefs.

✚ The kitchen boasts a range of practical and stylish solutions, such as the rail system.

✚ Massive gas stove with powerful burners and glass covered steel surface.

Highlights overview:

- ✚ Domestic style metal water taps and extractor fan (exhaust air)
- ✚ 141l fridge / freezer combination with auto energy selection (190l fridge / freezer combination with oven and grill (option))
- ✚ Three-burner-hob gas cooker with powerful burners
- ✚ Maxi drawers with softclose function and electric central locking
- ✚ Seamless, easy-to-clean working surface, smoothly connected to the wall
- ✚ Height-adjustable racks in overhead locker

+ Big motorhome, big cooking fun! So much space and elbow room is offered by the Dethleffs Premium class – and all that in befitting exclusive design.

+ Useful storage possibilities in cupboards over the wash bowl.

+ Spacious shower with Plexiglass doors, rain shower and optional ambient lighting.

Globetrotter XXL A

Bathroom

Globetrotter XXL model owners expect spacious and stylish wash rooms. Both bathroom layouts are as wide as the vehicle itself and so they offer enormous space. Warm water convectors of the

warm water heating provide pleasant temperatures even in extreme sub-zero temperatures. Great for year-round use!

Highlights overview:

- + Large bathroom with maximum headroom
- + Various storage possibilities – a place for everything!
- + Towel hook, tooth brush holder and toilet roll holder in chrome
- + Showering experience just like at home
- + Optional air vent system vacuums the air out of the toilet and prevents the unpleasant odours
- + Macerator toilet with waste tank (option)
- + Roof fan with venting in passage way of the bathroom (option)

+ XXL A 9050-2: Large bathroom with unbeatable space and storage.

Sleeping room

The layout variants of the XXL offer both single beds or double bed. Whatever you choose: You will enjoy excellent sleeping comfort on the high-quality 7-zone mattresses.

Detailed information about the exclusive hightech mattresses can be found on page 12.

+ **A 9000-2:** The single beds can easily be converted to a large double bed.

+ When another sleeping berth is needed the lounge can be quickly converted to a bed for two persons.

Highlights overview:

- + You can select from double bed or single bed layouts
- + Very light, moisture and temperature regulating 7-zone mattresses
- + Ergonomic wooden slatted bed frames for healthy sleep
- + Clever wardrobe ideas with spacious storage compartments
- + Easy conversion from lounge to bed

+ A 9050-2 | Almeria Ash Gloss: Cosy double bed for restful nights and relaxation for two.

+ Plus factors

+ Table length extension (1)

+ Powerful roof air conditioning (option) (2)

+ Large working surface and dedicated place for the coffee machine.

1 Smart mechanism: Just pull out the lever and extend the table top and you will have enough space for a big family.

2 For hot summers: The optionally available roof air conditioning comes with a power of 2400 W and efficiently cools down the interior even when the temperature is high outside. Another benefit is the air-conditioning which is connected to the operating unit of the warm water heating. Consequently, you can select a room temperature and the system will decide whether it will heat or cool.

3 The cab can be separated from the living room by a wooden sliding door. Ideal to keep out the cold and the heat – as well as unbidden guests, as the door can be locked as well.

4 Sound system with high-quality loudspeakers delivers excellent sounds in the living room (option).

5 Security for your valuables: theft-proof safe (option).

6 The robust entrance door is equipped with a large handle and the closing aid facilitates the closing, and solid 2-point-lock for more security.

7 Optional 9 inch Dethleffs Naviceiver with clear DAB+ radio reception, CD/DVD, USB and Bluetooth transmission. It navigates you to roads which are easy to drive for bigger vehicles. The information from the control panel is reflected on the display.

8 Fully-equipped cab (some parts are optional extras). For a cosy feeling the cab seats come with seat heating.

Also available:

+ The warm water heating creates a cosy atmosphere just like at home because it works without blowers, the air is not swirled around – ideal for allergy sufferers. You can regulate the sleeping area and living room separately with a 3-way valve. A heat exchanger uses the engine heat for heating the living room. Conversely the engine can also be pre-heated to avoid the extra wear which results from cold starts. More information on page 10/11.

+ Silent roof fan for optimum ventilation with variable rotation speed.

Uniquely Dethleffs: The optional leather upholstery “Meran” is available in several colour variations.

+ Fully-equipped cab (8)

+ Multimedia: Dethleffs Naviceiver incl. DAB+ (7)

+ Room partition wall (3)

+ Sound system (option) (4)

+ Theft-proof safe (5)

+ Robust living door with large window (6)

+ Plus factors

+ Practical gas bottle pullout

+ Store your items in double floor (1)

+ GRP covered underfloor

1 Perfectly accessible storage compartment 35 cm high with heated double floor (detailed information can be found on page 10).

2 Huge rear garage with at least 105x120 cm (minimum) garage doors (N/S & O/S). E-bikes can be comfortably charged by using the power outlet. When desired, another huge hatch in the rear can be installed. It eases the loading and securing of your holiday implements. A LED strip provides an optimum illumination over the whole vehicle width. Very handy: The garage doors can be opened with just one hand.

3 Iveco chassis with different driving assistance systems (optionally available with a wear-free retarder brake. The standard 3.0 litre (Euro VI D) common rail diesel engine delivers an impressive 180 hp / 132 kW (optional 210 hp / 154 kW). With its high torque of max. 430 Nm (470 Nm) there will always be enough engine power even for mountain trips. It is also ideal for towing trailers weighing up to 3.5 t (taking into account the total towing weight of 10 t). The Euro VI emission norm is achieved by adding the AdBlue liquid. The AdBlue tank with 20 l volume is installed on the passenger side.

Also available:

+ High payload due to a maximum possible weight increase up to 7.2 t permissible total weight (MIRO)(option).

+ Robust Iveco Daily chassis with twin tires and up to 7.2 t (max. authorised weight).

More advantages and information can be found at: www.dethleffs.com/xxla

+ 8-gear automatic gearbox HI-MATIC for highest demands of driving comfort and less fuel consumption at optimal performance (option)

+ Large overcab with 200 x 155 cm bed area

+ Repair-friendly rear with long-lasting LED rear lights with Dynamic indicator

+ Huge rear garage with third garage door (rear access door optionally available) (2)

Variety of choice

Exterior design | Upholstery

Design & Equipment – you have the choice!

Perfect service ...

... must never be a luxury!

All over Europe there is a close-knit dealer network. 330 trade partners and service workshops will assist you when needed.

On-site you will find modern workshops with qualified staff. Our regular training workshops make sure that the employees have the current know-how.

We also support our trade partners in assisting you quickly and efficiently. 93% of spare parts orders will be dealt within 3 working days.

Guarantee instead of warranty

Your new Dethleffs motorhome comes with an comprehensive manufacturer guarantee giving you more security in comparison to a usual warranty by law.

6-years' water ingress warranty as standard

Relax! The 6-years Dethleffs water ingress warranty for vehicle conversion will increase the resale value of your vehicle and give you a total peace of mind. Provided that water ingress inspections are undertaken on a yearly basis by a Dethleffs authorised workshop.

About the inventor of the caravan

The story of Dethleffs is the story of a man and his great idea. It is about Arist Dethleffs, a family man, who creates the first caravan in Germany at the beginning of the thirties – and he calls it very simply “Living Car”. Wherever the family Dethleffs were they were surrounded by many people.

In the course of time the name Dethleffs has become the epitome for competency and invention for caravans and motorhomes because of its great number of developments and smart ideas. Models and program lines with a unique and distinctive profile. Many of them became classic idols.

With 89 years' experience, the high quality level and the continuous exchange between Dethleffs, its motorhome customers and its partners enabled Dethleffs to become the friend of the family. And perhaps the reason for its success is the lively transfer of know-how that results in flexibility and innovation of the brand Dethleffs since 1931.

This eventful story with many interesting photographs can be found at: www.dethleffs.com/history

1931: The manufacturer of horsewhips and ski sticks Arist Dethleffs invents the Living Car and lays the foundation for a story of success.

1931

1952: Dethleffs start batch production of the caravans TOURIST and CAMPER.

1952

1983

1983: The overcab model PIRAT rolls off the assembly line – the first successful model of the young factory in Isny.

1987

1987: The model Dethleffs bus is launched and taps the pulse of the age.

2019

2019: Dethleffs is the first notable manufacturer to present the study of a fully electrically driven motorhome, the Dethleffs e.home.

2000: Dethleffs introduce the Premium Class. An automotive design and the coloured varnish characterises the A Class models.

2000

Many thanks for your interest in our Premium motorhomes. Other stylish models of our mainstream segment can be found in our main motorhome brochure. Additional information can be sent upon request. We kindly ask you to contact us via phone or order brochures via internet: www.dethleffs.com.

Subject to change, errors excepted. Please note that the pictures of this brochure also show alternative designs or optional fittings at extra costs. Detailed information about specifications and equipment can be found at the separate specification sheet. Colours will differ.

Many thanks for the support and decoration of the vehicles:
